Prince Kumar Singh

Frontend Developer / Mobile Developer

I am a front-end developer & react-native mobile app developer with an eye for detail, a passion for design, and a love for creating seamless user experiences. I strive for perfection in design/UI and am always eager to learn new skills and stay ahead of the latest industry trends. My ability to work in a team, think outside the box, and deliver results makes me a valuable asset to any organization.

- Computer Science and Engineering

XIIth Board (BSEB Board)
S.A. Eklavya Degree College, Jamui

05/2016 - 05/2018

Courses
- PCM

PERSONAL PROJECTS

Uniclub ⬀
- Tech. Stack used : HTML, CSS, Javascript, ReactJS, NodeJS, ExpressJS.
- UniClub is a club management web application basically designed to **handle the working of the clubs of our College**, which offers and controls a variety of club activities, including sharing event information, posting club-related information, and assigning Presidents to every Club via Admin Panel.
- Group Project : As a **Project Leader**, designed the whole UI using Figma and then developed the whole **Front-end from scratch using NextUI in React.**
- Implemented navigation Routes to navigate from one page to another.

Expense-Tracker ⬀
- Tech. Stack used : HTML, CSS, Javascript, ReactJS, NodeJS, Figma.
- We created a fully responsive Expense and Income tracker website, where we can list all our income and expenditures from various sources like salary, freelance, food, travel, medical, education, etc. to make an analysis of our money. **We can have an idea of where we are spending our amount.**
- Group Project : **Lead the project** and built the **Front-end** from scratch using React JS.
- Implemented Lottie animations on Authentication page.

Divynce ⬀
- Tech. Stack used : HTML, CSS, Javascript, Vite, NodeJS, OpenAI.
- Divynce is an AI chatbot, based on **OpenAI's "text-davinci-003"** model. In response to the user's input, it is intended to produce human-like conversations.

Personal Portfolio ⬀
- As a front-end developer, this portfolio website represents my skills, projects, and experiences.
- This portfolio website showcases my expertise in designing and developing visually appealing and user-friendly websites using HTML, CSS, JavaScript, and other front-end technologies.
- Tech. Stack used : HTML, CSS, Javascript.
